## LEGISLATIVE ASSEMBLY.

### PRIVATE BILLS.

#### EXCERPT FROM RULES AND ORDERS RELATING TO PRIVATE BILLS.

##### Rule 76.

ALL APPLICATIONS for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867"—whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint-stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act—shall require the publication of a notice clearly and distinctly specifying the nature and object of the application, and when the application refers to any proposed work, indicating sufficiently the location of the work, to be signed by or on behalf of the applicant. Such notice shall be published in the British Columbia Gazette and in one daily and one weekly newspaper freely circulating in all parts of the Province. When the proposed Private Bill is of a local nature, the notice shall be furthermore published in some newspaper in the electoral district affected, or if there be no newspaper therein, then in the nearest electoral district in which a newspaper is published. Such notice shall in all cases be continued for a period of six weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

72. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this

Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committee charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, together with copies of the notices published. Such publication to be proved by affidavit or declaration to the satisfaction of the Clerk of the House. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House the sum of three hundred dollars. If a copy of the Bill, Petition, and notices shall not have been so deposited in the hands of the Clerk of the House at least eight clear days before the opening of the Session, or if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the paid fees shall be returned.

77. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Rule 76, also at the same time and in the same manner give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

78. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills. Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

82. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring  $10\frac{3}{4}$  inches by  $7\frac{1}{2}$  inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to be run on through the Bill, but the lines of each page are to be numbered separately. Three hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee or Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By Rule 83, a model form of Railway Bill is adopted. A copy of same can be obtained upon application to the Clerk.

All Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

In the case of Bills to Incorporate Companies, in addition to the fee of \$300 mentioned in Rule 72, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.

Every Petition for a Bill to incorporate a company shall state the name of the proposed company.

Petition signed by agents or attorneys must be accompanied by the authority of such agent, etc.

## REGULATIONS PURSUANT TO THE "MILK ACT."

1. In these regulations, unless the context otherwise requires:—

"Act" means the "Milk Act," chapter 42 of the Statutes of British Columbia, 1926-27, as amended:

"Physician" means a duly qualified medical practitioner:

"Veterinarian" means a duly qualified veterinary surgeon.

2. The following is prescribed as the standard for "certified" milk or cream, as the case may be, for the purposes of section 16 of the Act: The milk or cream shall be produced on a dairy-farm certified by a Provincial Inspector to be classed as Grade A under the Act, and shall be so produced and shall be dealt with subject to and in full compliance with the following conditions and directions:—

(1.) All buildings in which certified milk is produced or handled shall be apart from other buildings and protected from dust of roads and fields. The surroundings shall be free from dirt, rubbish, animal or vegetable waste, and be well drained and dry:

(2.) All necessary measures shall be taken to prevent the entrance of flies and other insects, rats and other vermin into the buildings, and to prevent closets or privies, hog-pens, hen-houses, or manure-piles from exposure to flies or from being sources of bad odours:

(3.) The milk-house shall be located at a distance of not less than thirty feet from the cow-stable or other building, and at a distance of not less than one hundred feet from any dwelling, or any greater distances required by the Medical Health Officer of the municipality in which the milk is to be consumed, or his designated representative (hereinafter called the "Medical Health Officer"), and there shall be no hog-pen, hen-house, manure-pile, or any closet or privy other than of a modern approved sanitary flushing type within three hundred feet of it:

(4.) The milk-house shall contain a cooling and bottling room, a wash and sterilizing room, and a boiler-room, separate, and to be used only for their proper purposes in the production of certified milk alone. The floors shall be of concrete. No animals shall be allowed therein. While in use the cooling and bottling room shall be entered only by persons employed therein or by qualified inspectors. Thermometers shall be used on all sterilizers:

(5.) Pastures to which the cows have access shall be free from marshes, stagnant pools, contaminated streams, or from infectious matter and plants which might affect the milk deleteriously. In all cases on a dairy-farm producing certified milk, where those premises frequented by the herd immediately adjoin other premises or roads to which other live stock have access, a system of double fencing shall be employed to prevent infection, in a manner satisfactory to the Medical Health Officer:

(6.) No horses, hogs, dogs, or other animals or fowls shall be housed with the herd producing certified milk. All cows kept in the same barn with the milking-cows shall receive the same provision and care. Three-teated cows shall be excluded from the herd:

(7.) All bedding shall be fresh, clean, dry, absorbent, and reasonably free from dust. Where an exercise-yard, shelter, corral, or shed is provided, the floor of such shall be made of non-absorbent

material properly graded and drained and shall be kept clean at all times:

(8.) Cleaning of the stable shall be done not less than one hour before milking time and the floor shall be swept and kept free from refuse. Manure, when removed from the stable, shall be hauled directly to the field and spread, if possible. If stored temporarily near the cow-stable it shall be placed in a concrete container screened against flies and be removed to the fields and spread at least every seven (7) days. During the summer months (April 1st to October 15th) manure shall not even temporarily be stored within three hundred feet of the cow-stable or milk-house:

(9.) All long hairs shall be clipped from the udder, flanks, and from the tail above the switch of each cow. The switch shall be cut to clear the ground. All cows shall be groomed before each milking, all dirt being removed by means of a curry-comb, a stiff brush, and by washing with a clean cloth and clean water. The grooming shall be completed half an hour before the time of milking. The udders when washed shall be wiped with a clean damp cloth:

(10.) All foodstuffs shall be kept in an apartment separate from the cow-stable and be brought into the stable only immediately before the feeding-hour, which shall follow the time of milking:

(11.) An inspection of the milk-house in which certified milk is cooled, bottled, sealed, and handled shall be made at least once a month by the Medical Health Officer:

(12.) When application is made for a certificate under section 16 of the Act, a tuberculin test of the herd shall be made, and if any of the animals react a second test shall be made within sixty to ninety days. If no reactor is found a certificate may be granted. Thereafter the herd shall be tested semi-annually until it passes three successive tests without any reactions, after which it shall be tested annually, but when any reactions occur, semi-annual tests shall be resumed. If no reactors are found on the first test, the second test shall follow in six months. If the entire herd has been subjected to a tuberculin test within sixty days prior to a receipt of the application, this may, if satisfactory, be accepted as the first test:

(13.) All reactors shall be removed from the herd immediately after discovery and the milk shall be discarded and the stables and exercise-yards used by them shall be cleaned and disinfected in a manner satisfactory to the Medical Health Officer:

(14.) Each cow in a certified herd shall be sketched, labelled, or tagged with a number or mark which will permanently identify her:

(15.) Each cow shall be registered in a herd record, which shall be accurately kept by the dairy-farmer, so that her entrance, departure, and dates of her calving-period and tuberculin-testing can be ascertained. This record shall be accessible to the Medical Health Officer and the dairy-farmer shall be responsible for its accuracy:

(16.) No cow known or suspected to be diseased shall be permitted to remain in the milking herd. Any cow showing signs of disease, or under suspicion of being diseased, shall be immediately removed from the milking-stable to a separate building provided for such animals and the milk shall not be used. Any cow affected with mastitis (garget) shall be removed from the milking herd, even if only one-quarter of the udder is affected, and none of the milk from any of the quarters shall be used. No cow removed on account of disease shall be returned to the milking herd without the approval of a veterinarian:

(17.) Milk from all cows shall be excluded for a period of thirty days before and seven days after parturition. Cows shall not be permitted to calve in the milking-stable or in the stable where the herd is housed, and shall not be returned to said stable while the uterine discharges are putrid or purulent and under no condition before the seventh day following parturition:

(18.) In the event of the occurrence of a disease which appears to be of a serious character, between the visits of the veterinarian, or if a number of cows become sick at about the same time, it shall be the duty of the dairy-farmer to withdraw such

affected cattle from the herd, and to notify the veterinarian immediately, and to withdraw such milk from sale pending his inspection:

(19.) A veterinary inspection (including a careful physical examination) of each cow in the herd shall be made at least once a month:

(20.) Adequate lavatory facilities shall be provided for the milkers. The hands of the milkers shall be thoroughly washed and scrubbed before milking commences; they shall be washed and carefully dried before the milking of each successive cow. The practice of moistening the hand with milk is forbidden:

(21.) Milkers and other persons handling the milk shall wear clean suits and caps that shall be worn for no other purpose, and these when not in use shall be kept in a clean place protected from dust and dirt:

(22.) Employees shall not use tobacco or intoxicating liquor while in the cow-stable or in the milk-house. During milking, the milkers shall be careful not to touch anything but the milking-utensils and the cow's teats. Employees are forbidden to spit upon the floors or walls of the stables or upon the floors or walls of the milk-house:

(23.) Toilet facilities, provided for the milkers and others handling milk, shall be of a modern, approved, sanitary flushing type and shall be located outside of the dairy buildings, not in proximity to the bottling-room or receiving-room. All toilets shall be properly screened and shall be kept clean, and there shall be readily accessible thereto a properly equipped lavatory:

(24.) The first streams of milk from each teat shall be rejected. Such milk shall be milked through a very fine-meshed strainer to help to determine the presence or absence of garget and be collected in a separate vessel, and shall not be milked upon the floors or into the gutters. If the milk from any cow is bloody, stringy, or in anywise unnatural, the milk from that cow shall be rejected, and the cow shall be removed from the milking herd and shall not be returned until approved by the veterinarian. If dirt gets into the pail, the milk shall be discarded and the pail washed and sterilized before it is used again. The pails shall be protected from extraneous contamination. Promptly after the milk is drawn it shall be removed from the stable and strained through strainers made of double layers of finely meshed cheese-cloth or absorbent cotton or other approved material, thoroughly sterilized. Several strainers shall be provided for each milking in order that they may be frequently changed:

(25.) The milk shall be cooled and bottled immediately after being milked, and shall be kept at a temperature above freezing and below 45° F. until delivered to the consumer:

(26.) The milk shall be bottled, capped, and sealed upon the dairy-farm where it is produced. After being cooled and bottled it shall be immediately capped and sealed in a manner satisfactory to the Medical Health Officer. The inner cap shall be applied only by a suitable capping-machine. The seal shall include a sterile hood which completely covers the lip of the bottle, which cannot be used a second time for sealing the bottle, and shall be of such design and colour and show the name of the dairy-farm and such other information as may be required by the Medical Health Officer:

(27.) The milk shall be delivered to the consumer within thirty (30) hours from the time of milking:

(28.) Every employee for milking or handling milk or to be regularly employed on the dairy-farm shall be examined by the Medical Health Officer or his designated representative, or a qualified physician approved of by him, before assuming his duties, and all necessary laboratory tests shall be made when such are indicated.

(29.) The physician shall visit the dairy-farm weekly and examine all those who milk or handle the milk and all regular dairy-farm employees, and shall report to the Medical Health Officer upon blank forms supplied for that purpose. This report shall be countersigned by the dairy-farmer:

(30.) No person suffering from any communicable disease, or known to be a typhoid carrier shall be employed in the production of certified milk. No

person known or suspected to have had typhoid fever shall be employed except by special permit of the Medical Health Officer. Satisfactory evidence of successful vaccination against smallpox within seven years shall be presented before employment:

(31.) A record shall be kept on the dairy-farm premises of each employee, which shall show his name and address, date of employment, his medical history, results of physical examinations of cultures and other laboratory tests:

(32.) When employees live upon the dairy-farm their dormitories shall be subject to approval by the Medical Health Officer. Sufficient bathing and toilet facilities shall be provided for employees living on the dairy-farm:

(33.) Examinations of milk are to be made frequently at the discretion of the Medical Health Officer. All samples required for examination shall be furnished by the distributors and collected by the Medical Health Officer. The samples to be examined shall be obtained from milk as offered for sale. The samples shall be kept in properly iced containers:

(34.) Certified milk shall contain not over ten thousand (10,000) bacteria (colonies) per cubic centimetre during the months from and including May to October and five thousand (5,000) bacteria (colonies) per cubic centimetre during the months from and including November to April. If the count exceeds the above limits a further count shall be made, and if normal counts are not restored within ten days the certificate of the Medical Health Officer given under section 16 of the Act may be suspended or cancelled. Bacterial examinations shall be made as soon as possible after collection and in no case shall the interval be over three hours:

(35.) The methods and technique used in the chemical and bacteriological examinations of certified milk shall conform to the standard methods and technique for chemical and bacteriological examinations of milk:

(36.) Certified milk shall have undergone no pasteurization or sterilization. Certified milk shall contain an average of 4 per cent. of butter-fat, with a minimum of 3.5 per cent.; this average to be based on samples taken throughout a period of not over ninety days:

(37.) All specifications governing certified milk, except in relation to butter-fat and bacteria, shall also apply to certified cream:

(38.) The percentage of butter-fat in certified cream shall be stated on the cap of the bottle in which the cream is delivered to the consumer.

3. The following four classes of milk and cream are prescribed:—

*Certified Milk and Certified Cream.*—Being milk or cream, as the case may be, which complies in all respects with the standard for certified milk or cream, respectively, prescribed for the purposes of section 16 of the Act.
